Tech Skills: JavaScript • TypeScript • Laravel • PHP • Vue • NodeJs • Cordova • Quasar • CSS/SCSS • MSSQL • MySQL • NextJS • Azure • Docker • Git • AWS • Google APIs • Writes Clean and Maintainable Codes • Motivated and Quick Learner • Team Player

Freelance / Contract Full Stack Developer

Tokyo, Japan • Current

- Taking on contractual and freelance full-stack projects — building web apps and APIs with Vue, React, Laravel and Node.js.

Software Developer (Remote) • [RexCirus8](#)

Perth, Australia • SEP 2020 - OCT 2025

Achievement: 🏆 **Cirus8 Directors Award for Excellence 2024**

- Led end-to-end development of the **Facility Management System** using **Vue.js** (frontend) and **Laravel** (backend API), while maintaining and enhancing the core multi-tenant property management and accounting platform
- Built a dedicated **Android mobile application** using **Cordova**, extending system accessibility beyond the web
- Architected and implemented a centralized **Single Sign-On (SSO)** solution with **Multi-Factor Authentication (MFA)** and support for **Microsoft Azure AD** and **Google OAuth** login, alongside role-based management portals for both tenants and administrators — enabling secure, unified access control and streamlining platform oversight and operations
- Delivered key third-party integrations including **Macquarie Bank**, **Rapid Global Insurance**, **AWS S3**, and **Postmark Mail**
- Owned and maintained multiple web application portals: **User Admin Management**, **Facility Management**, **Property Management**, **SSO Login**, **Tenant Requests**, **File API**, and **Owner Charts Portal**
- Contributed to platform growth from 30–60 clients to 500+ clients, supporting thousands of daily active users and played an integral role in the company's attainment of **ISO certification** by upholding rigorous development standards, security practices, and quality assurance processes throughout the software lifecycle

• JavaScript • TypeScript • Laravel • PHP • Vue • NodeJs • Cordova • Quasar • SCSS • MSSQL • AWS • Azure • Google APIs

Senior PHP Developer • [Microsourcing](#) / Cirus8

Manila PH / Perth AU • MAR 2018- AUG 2020

- Advanced from PHP developer to senior full-stack engineer, leading the upgrade of Cirus8 from legacy PHP to a modern **Vue.js** and **Laravel** architecture
- Collaborated across multiple teams in a cross-cultural remote setup between Manila and Perth, delivering automated banking integrations and real-time financial reporting
- Developed interactive client-facing dashboards and data visualization tools used by Australian real estate firms

• JavaScript • AngularJs • Laravel • PHP • Vue • NodeJs • Cordova • Quasar • SCSS • MSSQL

Application Developer • [AtticusSolutions](#) / nexWareApps

Manila PH / AU • APR 2017- DEC 2017

- Developed custom NetSuite SuiteScripts and cross-platform applications for nexWareApps (via Atticus Solutions) to extend ERP functionality. Engineered the company's website with seamless NetSuite integration to automate data synchronization and business processes.

• NetSuite • SuiteScript • Javascript • WordPress • PHP • CSS • MySQL

Team Lead / Senior Web Developer • [PointOne Integrated Technologies Inc.](#) Manila PH • JAN 2016- MAR 2017

- Served as **Team Lead**, overseeing a development team in architecting and delivering tailored software solutions across multiple client engagements — including **Shell (NAIA) shift scheduling automation** and fully integrated **ERP modules** spanning Inventory, Accounting, and Real Estate management
- Spearheaded the development of a nationwide **POS system** ([OnePOS](#)) still actively running across multiple Philippine restaurants — notably **Hapchan, Bluesmith, Baker's Studio, and Fritus** — reflecting the system's long-term reliability and scalability

• CodeIgniter • Javascript • JQuery • Bootstrap • PHP • CSS • MySQL

Web Developer • 1Mobile Integrated Solutions Inc.

Manila PH • SEP 2014- JAN 2016

- Designed and deployed end-to-end mobile and backend ecosystems for multiple client companies, delivering high-traffic and business-critical applications
- Built a **Food Ordering System** optimized for performance and scalability under high user load
- Developed a **Mobile Ledger application** for real-time financial tracking and reporting on mobile devices
- Engineered an **Inspection System** for field operations and a **Raffle System** for promotional event management

• CodeIgniter • Javascript • JQuery • Bootstrap • PHP • CSS • MySQL • Cordova

Web Developer • [PointOne Integrated Technologies Inc.](#)

Manila PH • SEP 2013- AUG 2014

- Collaborated within a development team to engineer scalable, multi-module software solutions for clients across diverse industries
- Contributed to the build of an **Enrollment System** managing student registration, records, and course management workflows
- Developed an **Accounting System** handling financial transactions, reporting, and ledger management
- Built a **Warehouse Management System** to streamline inventory tracking, stock movements, and order fulfillment
- Engineered an **HR System** covering employee records, payroll processes, and organizational management

• CodeIgniter • Javascript • JQuery • Bootstrap • PHP • CSS • MySQL

Web Developer • Hercules Group

Manila PH • SEP 2012- AUG 2013

- Responsible for creating, modifying, and maintaining responsive websites to ensure optimal performance, security, and user experience
- Collaborated with stakeholders to translate business requirements into functional, well-structured web pages
- Ensured cross-browser compatibility, page load optimization, and consistent UI/UX across all maintained properties

• Javascript • JQuery • Bootstrap • PHP • CSS • MySQL • Cordova
